

Laminate and RAL colours

Band 1 RAL colours

naughtone has selected a number of RAL* colours which we can offer as alternative colours on a wide variety of product components in our range. For example you could have a green reg chair or a pink sled base on your hush chair maybe. Look out for the colour base upcharge on the individual product pages.

*The RAL colour system is a range of reference colours used mainly for industrial finishes.

Band 1 laminate

Band 1 laminate

naughtone has defined a range of standard colours from formica's laminate range, making it easier when you want a table top that's not white!

These colours complement our standard RAL colours, allowing for striking combinations in ranges such as the fold table.

Formica laminate is an extremely durable surface which we bond as a top sheet to either MDF or birch ply depending on the desired edge detail.
