product can be requested from naughtone or found at www.naughtone.com

Design

The Cloud range, both quilted and plain finish are a staple in the naughtone range and offer a visual and acoustic haven. The addition of a table to the 1.5 high booth is a natural addition to the cloud range. The result is a truly satisfying place to sit and concentrate.

Unlike other products in this realm, Cloud work booth is luxurious and available in endless fabric options — make no compromise in your interior scheme. As Cloud work booth uses the same surround as cloud seating it integrates seamlessly with the seating products, perfect for planning flexible environments.

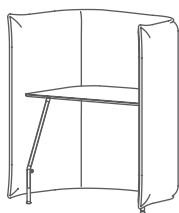

The table top options match other naughtone products, oak veneer, walnut veneer, white MFMDf and forbo lino. The other standard table top option is power and data supply.

Technical

Cloud work booth upholstered surround is constructed with a mild steel tube frame covered on upholstery foam then with the quilted cover pulled over the top. The table base supports the upholstery surround and is also made from mild steel tube finished with polyester powder coat. Table tops have various finish options, all of which have an MDF core.

*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.
