**New Knot table Available to order from 01 Sept 2017**

Knot table design by naughtone

**Design**

Knot side table is a perfect height and scale to work with a multitude of seating. Landscapes of multi purpose seating are becoming more common in the workplace, education and hospitality environments; the knot table is the perfect partner to mediate between these different products. It is light weight, and uncluttering making it intuitive to position around various types of seating. The off-centre stem makes it particularly useful to tuck into seating and use as a work surface.

Knot is useful and in naughtone style is also beautiful, the knotted tube design celebrates tube laser cutting techniques and a little bit of magic is added with the full round seamless end caps. Combined with one of our standard RAL colours on the base the result is an almost neon sign, cartoon like aesthetic that we hope will make you smile.

**Technical**

Knot table is made from mild steel tube, laser cut, then bent, then welded together. The end caps on the tube are machined mild steel, welded and polished into the tube ends. The base is finished with a hard-wearing polyester powder coat. Table top have various finish options but all have an MDF core.

*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

**Sizes**
