

# Tier Table

A beautifully refined pedestal table.

The NaughtOne Tier Table invites people to gather in meeting, dining, educational, and hospitality settings.

Available in standing or seating heights, Tier Tables are also offered with square and circular tops at various sizes to accommodate small or large groups. The beautifully scaled stem and base can be specified by either mixing or matching the available 16 colours, plus integrated power within the table is a standard option.

It's backed by a 10-year warranty and can be returned to NaughtOne via our Take-Back Programme at the end of its long life – when we'll make sure its easily disassembled materials make it to the right place.

Where sustainable sources are quoted, and a chain of custody is required by a customer this must be indicated on the purchase order to NaughtOne. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in this document may vary based on model and options selected. We have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages. Material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.

# Product Sustainability Statement

The Tier table is available in a range of sizes and finishes but for the purpose of this document we have a specific example from the range: Tier 600 circular cafe table with oak veneer top.

## CSR Statement

We care a great deal about the sustainability of our products. At every stage of the process – from design to manufacturing to shipping – we seek to minimise our environmental impact. Our 10-year warranty speaks of our commitment to making quality, durable furniture that does not need to be regularly replaced. We offer FSC® certified upholstered products and use recycled metals in our table ranges. We have manufacturing facilities in North America to reduce freight miles in our largest market. And we offer an innovative Take-Back Programme that enables clients to return products to us at their end of life so we can recycle the parts. We are proud of what we have done, but we are ready to go further.
