

# Penny Stool

A colourful place to perch.

The warmly familiar and beautifully crafted Penny Stool embodies NaughtOne's ethos of absolute simplicity. The deceptively simple design belies a considered construction that delivers designers style, comfort, and longevity in their installations.

The timeless design of Penny is appealingly flexible with 16 different leg colour choices and a seat available in solid oak or walnut, allowing designers to create individual pieces for each new environment, be it work place, education or hospitality.

Penny is available in low (stackable 12 high), counter, and bar heights. Robust and durable, Penny is engineered for longevity, fully tested for contract use, and backed by a 10-year warranty.

At the end of its long life, you can simply return Penny to NaughtOne via our Take-Back Programme, and we'll be sure its materials make it to the right place.

FSC® certified products available upon request (FSC® C134222)

NaughtOne offers PEFC certified products

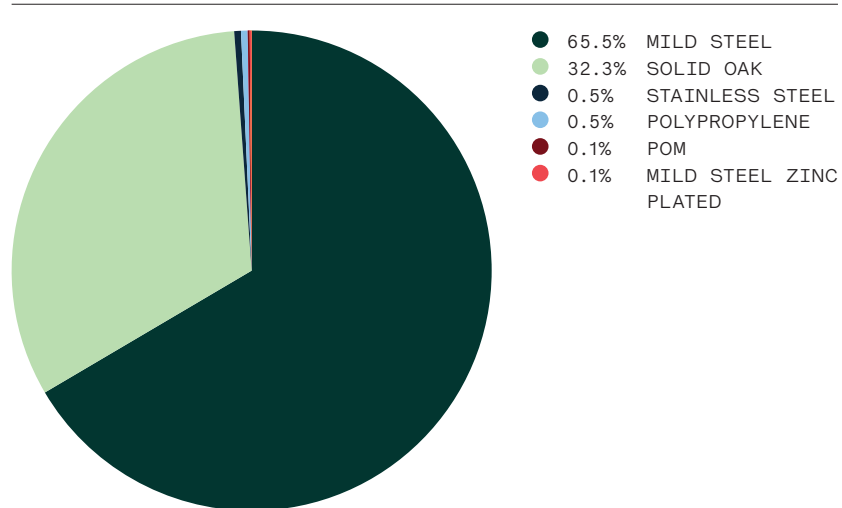

## Recyclable Content

## Recycled Content

## Material Percentage Split

Where sustainable sources are quoted, and a chain of custody is required by a customer this must be indicated on the purchase order to NaughtOne. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in this document may vary based on model and options selected. We have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages. Material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.

## CSR Statement

We care a great deal about the sustainability of our products. At every stage of the process – from design to manufacturing to shipping – we seek to minimise our environmental impact. Our 10-year warranty speaks of our commitment to making quality, durable furniture that does not need to be regularly replaced. We offer FSC® certified upholstered products and use recycled metals in our table ranges. We have manufacturing facilities in North America to reduce freight miles in our largest market. And we offer an innovative Take-Back Programme that enables clients to return products to us at their end of life so we can recycle the parts. We are proud of what we have done, but we are ready to go further.
